5 of 5 review helpful Excellent Reading By Shaun Herndon Current events tell of many stories where the voices or votes of the people are being hijacked by the political parties It so happens that people who don't further inquire into the political soundbytes that are spewed are in effect disenfranchised from the political process and unwittingly conform to misinformation In this book of we find Christopher Hitc In the book that he was born to write provocateur and best selling author Christopher Hitchens inspires future generations of radicals gadflies mavericks rebels angry young wo men and dissidents Who better to speak to that person who finds him or herself in a contrarian position than Hitchens who has made a career of disagreeing in profound and entertaining ways This book explores the entire range of contrary positions from noble dissident to gratuitous p com Do justice and let the skies fall Christopher Hitchens borrows from Roman antiquity this touchstone for a career of confrontation argument and troublemaking Part of the Art of Mentoring series Letters to a Young Contrarian is a trim volume
