A new interest in European maritime exploration was aroused with the publication of the first volume of J C

Beaglehole's edition of The Journals of Captain James Cook in 1955. In the forty odd years since then our knowledge of this exploration and of the imperialism of which it was a part has expanded enormously. We now recognise that the scientific endeavours once seen as disinterested manifestations of the Enlightenment actually had both strategic and commercial aims. It is a pleasure to review an old-fashioned book free of modish interpretations and experimental methodologies. Overall this is an interesting and readable collection of essays, honestly researched and faithfully written, a fitting tribute to the life and
