3 of 3 review helpful I really wanted to like this book but couldn't manage to By book junkie I DO need to slow down and I was looking for ways to help me do that While I did find a few ideas this book was difficult to read and even to finish Parts of it were beautifully written but parts of it dragged on and on repeating the same ideas till I wondered when the chapter would end There were too many anecdotes and Over the course of ten years training teachers to write their own poems in order to pass the craft along to students McEwen realized that nothing comes easily when life is conducted at a high rate of speed She draws not only on personal experience but on readings ranging from literary anecdote and poetry to Buddhism anthropology current news and social history all supplemented by interviews with contemporary writers and artists This is a real reader's book "World Enough Time" is above all simply one of the most beautiful books I have ever read Its message about time could not be more timely This is not just a good book This is a book that should become a classic — John de Graaf
