2 of 2 review helpful Last stop before the Standard Edition By David H An extremely useful introduction for anyone reading Freud closely Certainly useful for psychoanalytic candidate but also anyone who wants to read Freud in a serious way The most important and Modern Freudian texts are very dense and difficult especially those from the 1920s 1 of 1 review helpful Excellent Craig Winner of the 2010 Sigourney Award Reading Freud provides an accessible outline of the whole of Freud s work from Studies in Hysteria through to An Outline of Psycho Analysis It succeeds in expressing even the most complex of Freud s theories in clear and simple language whilst avoiding over simplification Each chapter concentrates on an individual text and includes valuable background information relevant biograph This book is both a primer and a resource for the specialist It provides an accessible outline of the whole of Freud s work through analysis of key texts the volume is an amazing editorial achievement for which readers of Freud should be most grateful
